

# Sachin Pattar

Senior Software Engineer | Java Full Stack Developer

📍 Gulbarga, Karnataka || 📞 +91 9886872578 || 📩 sachinpattar928@gmail.com

## PROFESSIONAL SUMMARY

Senior Software Engineer with **4+ years of experience** in designing, developing, and maintaining **secure, scalable, cloud-ready microservices and full-stack applications**. Strong expertise in **Java, Spring Boot, Quarkus, and React**, with hands-on experience in **AWS-based deployments** and exposure to **containerized workloads on Amazon ECS and EKS**. Proven ability to deliver **high-quality production code**, optimize system performance, and contribute to **architecture and design decisions**. Working knowledge of **Node.js, Python (Django), and Go**, enabling cross-stack collaboration and backend extensibility. Passionate about clean code, system design, and continuous improvement.

## CORE TECHNICAL SKILLS

### Backend & Microservices:

Java, Spring Boot, Spring Framework, Quarkus, REST APIs, Microservices, Hibernate/JPA, Kafka, Node.js, Python (Django), Go

### Frontend:

React, Angular, JavaScript, TypeScript, HTML5, CSS3, Redux, UI Performance Optimization

### Cloud & DevOps:

AWS (EC2, S3), Docker, ECS/EKS (exposure), Jenkins, CI/CD, Git, GitHub, Bitbucket, GitHub Copilot

### Databases:

Oracle, MySQL, SQL, MongoDB, Redis, Query Optimization, Indexing

### Architecture & Practices:

System Design, Design Patterns, Secure Coding, Code Reviews, Refactoring, Agile/Scrum, JIRA

## PROFESSIONAL EXPERIENCE

### Senior Software Engineer

Wipro | Sept 2024 – Present

Client: Bank of America

- Designed and developed **Spring Boot-based microservices** for enterprise banking systems covering credit risk, onboarding, and compliance workflows.
- Delivered **secure, high-quality production APIs**, ensuring adherence to architectural, security, and regulatory standards.
- Improved backend performance through **Oracle query tuning, service refactoring, and optimized API design**.
- Supported **AWS-hosted, Dockerized deployments** and collaborated with DevOps teams on **ECS/EKS deployment models**.

### Senior Software Engineer

**Wipro**

**Client: Standard Chartered Bank**

- Led development of **Quarkus-based microservices** for a digital banking platform handling real-time transactions and account management.
- Reduced **API response time by 30%** through backend refactoring, SQL optimization, and improved service layering.
- Designed and enhanced **React.js frontend components**, increasing user engagement by **25%**.
- Mentored junior developers and improved **code quality, CI/CD practices, and team productivity** using GitHub Copilot.

---

## Software Engineer

**Siden Global Private Ltd.** | Apr 2024 – Jul 2024

**Client: Canara Bank**

- Developed **Spring Boot microservices** with a focus on scalability, maintainability, and clean architecture.
- Implemented complex ORM mappings using **Hibernate/JPA** for efficient database operations.
- Integrated backend services with **React and Angular frontends**.
- Performed **unit and integration testing** to ensure production stability and reliability.
- Assisted in analyzing production issues and implementing preventive fixes.

**Tech Stack:** Java, Spring Boot, React, Angular, Hibernate, SQL, Git

---

## Java Developer

**Hanuvel Consultant India Pvt Ltd** | Sept 2022 – Nov 2023

- Contributed to backend development of the **Wild West Rummy (WWR)** gaming platform.
- Developed **Spring Boot microservices** and integrated **Apache Kafka** for real-time event processing.
- Improved system throughput and stability by **refactoring service logic and optimizing workflows**.
- Gained exposure to **Node.js-based integrations** for supporting auxiliary backend services.

**Tech Stack:** Java, Spring Boot, Kafka, Angular, React, Node.js, SQL

---

## Java Developer

**ACS Global Tech Solutions** | Jul 2021 – Aug 2022

- Developed full-stack features using **Java and Angular** for enterprise applications.
- Integrated **Kafka-based live data streams**, improving system responsiveness and reliability.
- Supported application maintenance, bug fixes, and performance enhancements.

**Tech Stack:** Java, Angular, Kafka, SQL, Git, Eclipse

---

## EDUCATION

**Master of Computer Applications (MCA)**

Sharnbasva University, Kalaburagi

**Bachelor of Computer Applications (BCA)**

Gulbarga University, Kalaburagi
